

Synthetic Cannabinoids Screen with Confirmation Urine

Order Name: **SYNTH CANNAB**  
Test Number: 20539017  
Revision Date: 01/04/2023

| TEST NAME   | METHODOLOGY                                    | LOINC CODE |
|---|--|------------|
| Synthetic Cannabinoids Screen with Confirmation Urine | Liquid Chromatography/Tandem Mass Spectrometry |            |

| SPECIMEN REQUIREMENTS |  |               |                         |                       |
|-----------------------|--|---------------|-------------------------|-----------------------|
| Specimen              | Specimen Volume (min)  | Specimen Type | Specimen Container      | Transport Environment |
| Preferred             | 10 mL (1 mL)   | Urine, Random | Sterile Urine container | Refrigerated          |
| Instructions          | <p><b>Specimen Type:</b> Plastic urine container without preservative</p> <p><b>Specimen Storage:</b> SUBMISSION/TRANSPORT (&lt;3 days): Room Temperature. For storage beyond three days, specimen should be refrigerated or frozen.</p> <p><b>Special Instructions:</b> Testing referred to MedTox Laboratories Inc MX#701106</p> |               |                         |                       |

| GENERAL INFORMATION          |   |
|------------------------------|---|
| Expected TAT                 | 5-10 Days   |
| Clinical Use                 | Synthetic cannabinoids refer to a wide variety of herbal mixtures that produce experiences similar to marijuana (cannabis) that are marketed as legal alternatives to that drug. Sold under names, including "K2," "Fake Weed," "Yucatan Fire," "Skunk," "Moon Rocks," and "Spice," they are labeled "not for human consumption." Synthetic cannabinoids are psychoactive designer drugs made with dried, shredded plant materials and chemical additives that induce psychoactive effects. |
