

## MLH1 Promoter Methylation, Paraffin

Order Name: **MLH1PCR**  
Test Number: 6905085  
Revision Date: 11/14/2022

| TEST NAME                           | METHODOLOGY | LOINC CODE |
|-------------------------------------|-------------|------------|
| MLH1 Promoter Methylation, Paraffin |             |            |

### SPECIMEN REQUIREMENTS

|              |  |               |                       |                         |
|--------------|--|---------------|-----------------------|-------------------------|
| Specimen     | Specimen Volume (min)  | Specimen Type | Specimen Container    | Transport Environment   |
| Preferred    |  | <b>Tissue</b> | <b>Paraffin Block</b> | <b>Room Temperature</b> |
| Instructions | <b>Notes:</b> Tumor surface area >=4mm <sup>2</sup> tumor area and >= 50% tumor content are preferred.<br><b>Specimen Type:</b> Tissue block and slide container<br><b>Specimen Storage:</b> Room temperature<br><b>Special Instructions:</b> Please provide a copy of the pathology report. MLH1 testing will be delayed if the pathology report is NOT received. |               |                       |                         |

### GENERAL INFORMATION

|                              |                           |
|------------------------------|---------------------------|
| Expected TAT                 | 6-10 days                 |
| Performing Labcorp Test Code | 512031                    |
| Notes                        | Labcorp Test Code: 512031 |
