

Cocaine Class Confirmation Urine

Order Name: **COCAL CONF**

Test Number: 4000435

Revision Date: 05/14/2020

| TEST NAME                      | METHODOLOGY                             | LOINC CODE |
|--------------------------------|-----------------------------------------|------------|
| Benzoylcegonine Confirmation   | Liquid Chromatography/Mass Spectroscopy | 16226-3    |
| Benzoylcegonine Interpretation | Interpretive information.               |            |

| SPECIMEN REQUIREMENTS |                                                                                                                                                   |               |                                |                       |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|---------------|--------------------------------|-----------------------|
| Specimen              | Specimen Volume (min)                                                                                                                             | Specimen Type | Specimen Container             | Transport Environment |
| Preferred             | 10 mL (1 mL)                                                                                                                                      | Urine, Random | Sterile Container or Monovette | Refrigerated          |
| Instructions          | Keep refrigerated. Specimen Stability: Ambient 7 days. Refrigerated 30 days. Frozen 6 months<br>Please provide accurate prescription list to lab. |               |                                |                       |

| GENERAL INFORMATION |                                                            |
|---------------------|------------------------------------------------------------|
| Testing Schedule    | Mon - Fri                                                  |
| Expected TAT        | 3-5 days                                                   |
| Clinical Use        | Used to evaluate medication compliance in pain management. |
| CPT Code(s)         | G0480 (alternate:80353)                                    |
| Lab Section         | Chemistry LC-MS                                            |
